

1. Jay Currie, Pharm.D., clinical professor in the University of Iowa College of Pharmacy, was installed as 128th president of the Iowa Pharmacy Association at the group's annual banquet June 9 in Coralville.

Currie, who also serves as associate head of the UI College of Pharmacy's Division of Clinical and Administrative Pharmacy, directs the college's professional experience program, with responsibility for introductory and advanced practice experiences, the community pharmaceutical care rotation, and the community care pharmacy practice residency program. Dr. Currie is also a Faculty Associate with the UI Center on Aging.
